SET ROW DISTANCES FOR VIDEO WALL INSTALLS

# BT8390-SP

SYSTEM X™ ROW HEIGHT ADJUSTMENT SPACER

The BT8390-SP row height spacer is designed to set the distance between two horizontal mounting rails for landscape video wall installations. The spacer simply hooks over BT8380-JPK and is incremented to make it compatible with 46", 47", 55" and 60" screens. This product is a useful tool that dramatically shortens install times by eliminating on-site calculations, while creating perfectly spaced video wall solutions.

SPECIFICATION	
Steel thickness	2mm
Screen size increments	46", 47", 55" and 60"
Maximum extension	942mm
Colour	Black

FEATURES

- Designed to speed up installations of 46", 47", 55" and 60" videowalls
- Increment notches in the product allow the correct screen size to be quickly identified and set into place using the thumbwheel
- Dramatically shortens install times by eliminating on-site calculations
- Supplied with all System X off-the-shelf videowall solutions as standard
- Re-suable for future builds

55 INCH 1215 x 686

55 INCH 1222 x 693
