

FUNC WM T

Perk up your readability

An easy way to give your screen a tilt function

A clever solution when you need a tiltable wall bracket – when mounting a screen high on a wall, for example. The extended range of VESA standards, from 100 x 100 to 400 x 400 mm, makes this bracket compatible with most popular screen sizes. The product can be set in either of two fixed positions, enabling it to be mounted either flush with the wall or tilted forwards by 8 degrees. Black. Maximum load 30 kg.
