

X FLEXIBLE CAMERA SHELF

A delightful union of display and camera

mounted on a bracket or the wall.

A thin and elegant shelf that gives the impression that the video camera is directly attached to the display. In addition, it has extensive adjustment possibilities both vertically and depthwise. The SMS X Flexible Camera shelf can be used with the X product series, or for direct attachment to the wall (in this case, simply remove the accompanying column attachment). Particularly discrete when used with black displays. Maximum load 3 kg.
